

## Eagle Eye & Hy-Tek Integration

*Eagle Eye*

### Why is the GET TIMES button within Hy-Tek not active?

The **GET TIMES** button must be active in order for Hy-Tek to receive Eagle Eye results files.

If the GET TIME button is not active (highlighted) **you do not have** the Hy-Tek **Photo Finish Interface option** installed on your computer.

This feature does not come standard with Meet Manager unless purchased. You activate this feature by purchasing this item directly from Eagle Eye.
