

Software Installation & Activation

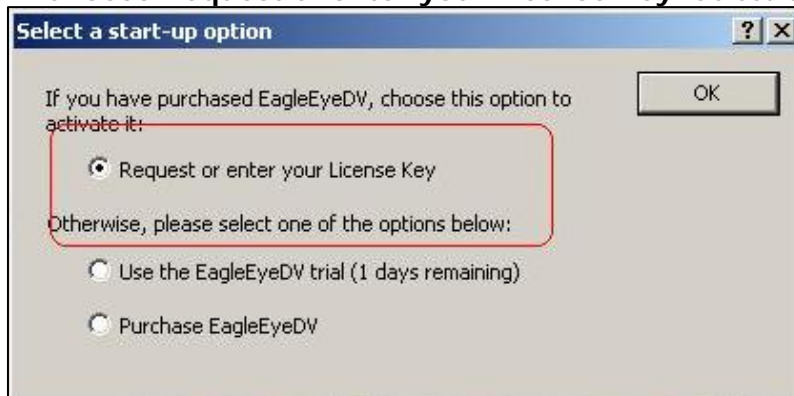

Software Activation

Your Eagle Eye software is activated via a License Key process which protects the manufacturer from software piracy. You must be connected to the internet for this process and must have your 15 digit serial number

1. Open Eagle Eye

Double click the Eagle Eye icon on your desktop to open the program. The **Select a Start-up option** will appear.

2. Choose Request or enter your License Key. Select OK.

3. Request License Key

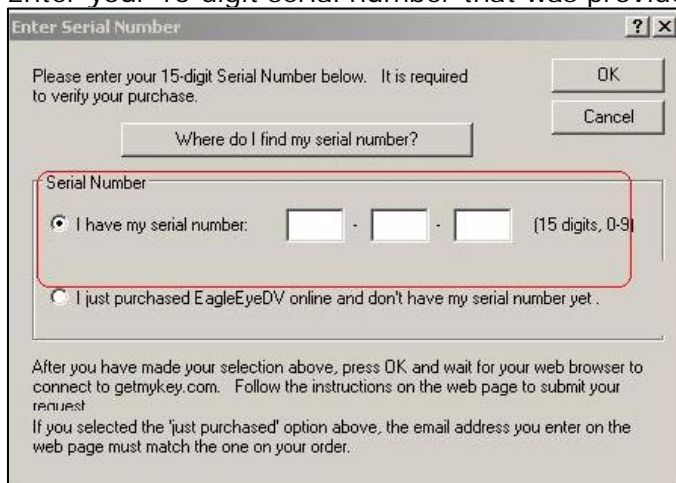

The Activation window will appear. Select **Request License Key button**

4. Confirm Internet Connection

5. Enter your Serial Number

Enter your 15 digit serial number that was provided with the purchase of Eagle Eye.

6. GetMyKey

The serial number you entered and the Activation Code will be automatically populated. Enter your email address and your License Key will be emailed to you.

GetMyKey

My Serial Number (fifteen digits [0-9], spaces or dashes are optional)
Your Serial Number is found on the back of your CD sleeve or it is emailed to you for download and online orders.

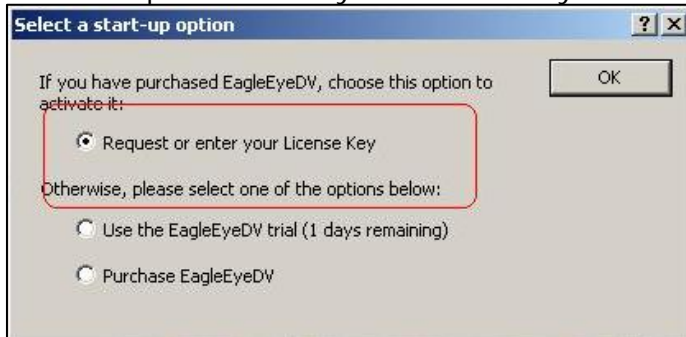

My Activation Code (twelve letters [A-Z], not case sensitive, spaces or dashes are optional)
Your Activation Code is displayed when you choose "Request or enter your License Key" when you start the program. It is unique to each computer. The program must be installed on the computer you intend to use it on so that you can get that computer's Activation Code.

My Email address

Your email address is required. Your sixteen letter License Key will be emailed to this address. Please double check your email address for accuracy before pressing Submit. Your License Key will be emailed to you within 24 hours. Check your junk email folder, if applicable, in case your email program filters on the random letters in the key.

7. Re-Start Eagle Eye

Once you receive your License Key via email, re-start the Eagle Eye program and again select Request or enter your License Key

Select a start-up option

If you have purchased EagleEyeDV, choose this option to activate it:

Request or enter your License Key

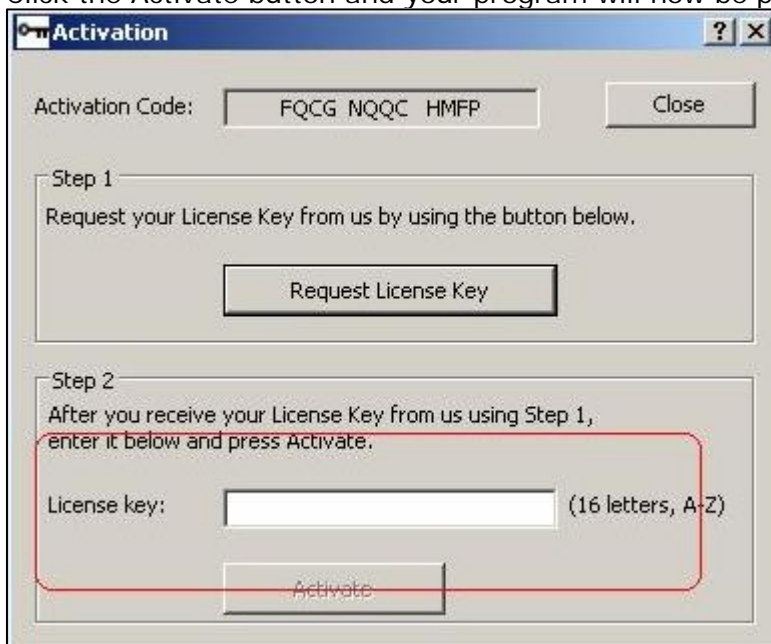

Otherwise, please select one of the options below:

Use the EagleEyeDV trial (1 days remaining)

Purchase EagleEyeDV

8. Enter your License Key

Enter the License Key that was emailed to you. The Activate button will become active. Click the Activate button and your program will now be permanently activated.
