

Software Features

Eagle Eye

Using the Toggle Slide

The toggle Slide feature allows you to advance the video by clicking your mouse anywhere on the screen instead of having to grab the scroll bar at the bottom of the screen...this feature helps reduce the amount of mouse travel by the operator.

1. LEFT CLICK the **TOGGLE SLIDE icon** on the top toolbar. 
2. Place cursor anywhere on the screen, **LEFT CLICK - HOLD** to drag and advance video.
